asia's leading exhibition

transport logistic China 2024

Benefit from Asia's potential in Shanghai

It's the leading trade fair for logistics, mobility, IT and supply chain management in Asia. It's the driving force behind China's logistics and transport sector. It gathers important decision-makers from around the globe. And it's the gateway to the Asian logistics market. That's transport logistic China.

Remaining on an overwhelming growth track, the exhibition's 2018 edition attracted 667 exhibitors and more than 26,300 visitors from as many as 67 countries and regions. The all dominating topics? Industry 4.0 and the New Silk Road.

In 2024, transport logistic China will be back! You can once again expect one of the Asia's biggest and most exciting fair. Important topics will be smart logistics, digital supply chain and the sustainability programs.

What better place to meet and see your customers, partners and getting new contacts than at the next transport logistic China 2024 in Shanghai where we will await you with a professionally organized event, managed by the highly experienced team of the transport logistic trade fair in Munich and Shanghai. For you to efficiently network with your target audience and logistics experts from all over the world. Are you in?

Global reach: 67 visitor countries and regions

Thomas Lindy Sorensen,
CEO, Schenker China Ltd. (Germany)

"We already have been at transport logistic China four times. For us, the transport logistic fairs are important events to stay up to date and develop our business opportunities."

All facets of the logistics industry. One single spot.

Hub for air cargo: taking off together

air cargo China is a leading business platform for those who want to step up their business activities in the

Asian markets, which attracts more and more leading companies like airlines, airports, forwarding agents, express services, logistics providers, etc. Want to know the trends and major challenges of the air cargo sector? Then don't miss the air cargo China 2024. It offers exclusive networking and new business opportunities.

Fresh, firm, fail safe: solving the challenge

PeriLog - fresh logistics Asia aims to "deliver a healthy new life" and focuses on logistics solutions

for fresh food. It offers a full view of intelligent solutions for fresh logistics service and equipment, cold storage construction and warehousing, fresh food processing and packaging, intelligent fresh food retailing, convenience food industry, etc. PeriLog will provide you with the new trends and latest products in this sector.

Smart logistics

A new round of technology revolution is under way with the Industry 4.0 and Made in China 2025 initiatives: big data, cloud computation, artificial intelligence and block chain technology are increasingly used; new trade and business models are emerging. As a result, smart logistics has become mainstream, owing to its strong growth and increasing capabilities.

Sustainability and green logistics

China has set forth a dual carbon national goal and the energy transition is the declared goal of this decade, which will drive the logistic industry steadily towards the "low-carbon" direction. This catalyzes the emergence of alternative drive technologies, the use of new energy logistic vehicles and the optimization of door-to-door combined transport models. It is obviously that green logistics is the overwhelming trend and transport logistic China will await you with a sea of business opportunities in this sector, come and show your contribution here.

National pavilions 2018

Stefan Schröder,
Head, German Logistics Alliance (Germany)

“We are facing a new era in logistics especially in the fields of environmental and social responsibility but also in regard to the constantly growing complexity of our industry. That is why we need to be innovative. Of course these developments also reflect on the Sino-German relations and underline the importance for further cooperation between both countries.”
